Medicaid is Under Threat

Congress proposed cutting Medicaid funding by \$880 billion.

77%
MATCH RATE

For every dollar MS spends on Medicaid, the federal government pays 77 cents.

MS receives the highest federal match in the nation.

Any Medicaid budget cuts would force Mississippi to cut services provided AND/OR payments to providers, putting our most vulnerable at risk and straining our economy .

Over time, the program won't be able to balance the costs of care. It is a "death by a thousand cuts."

34 of 74 rural hospitals are at risk of closing; while 25 are at immediate risk of closing.

Hospitals in Mississippi receive more money from Medicaid than they do from private insurance.

If the Medicaid budget is cut, hospitals will struggle to stay afloat because they'd receive less money.
