Mississippians in
the Coverage Gap

Medicaid Expansion would...

Reduce hospitals' uncompensated care costs by approximately \$164-191 million per year.

Bring hundreds of millions of dollars in revenue to Mississippi, keeping our state budget strong and ensuring working families can get health care when needed most.

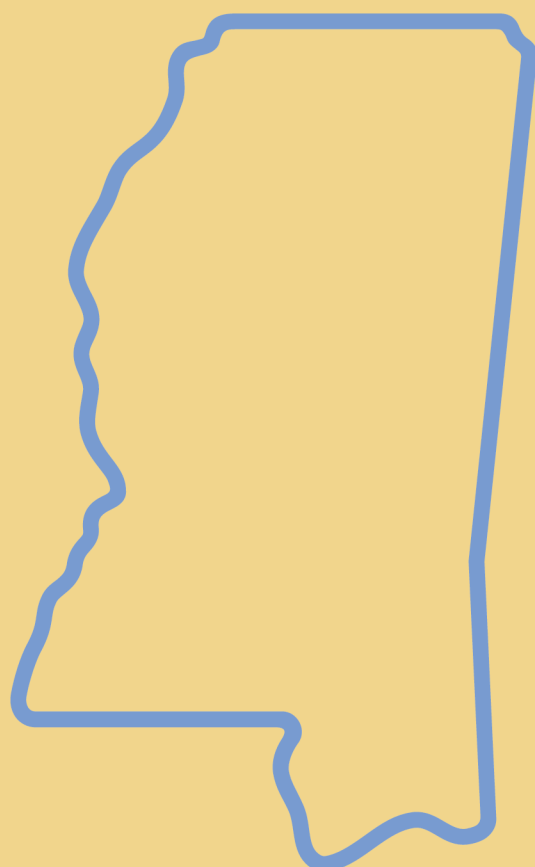

Produce an average of 11,000 new jobs per year after implementation.

34 of 74 rural hospitals are at risk of closing; while 25 are at immediate risk of closing.

Mississippi hospitals have approximately \$600 million in uncompensated care annually.

Mississippi is 1 of 10 states in the nation that have not expanded Medicaid.

63% of Mississippians reported delaying or going without care due to cost in the past 12 months.
